

Salisbury Now Offers Arc Flash Protection PRO-WEAR™ Clothing in Highly Visible Orange Material.

Salisbury is always supplying what the customer wants... Same protective clothing you've come to trust in a highly visible color.

Salisbury's orange arc flash protection PRO-WEAR garments include 8 cal/cm² coat, bib overalls, overpant, and coveralls. All of these garments are made from arc flash resistant Indura Ultra Soft® and are sewn with Nomex® thread.

The **Orange PRO-WEAR Coat** is 32" long with a FR hook and pile storm flap front closure and an expansion back for added protection. The wristlets are made from stretchable Nomex® material. The coats are intended to be used with Salisbury PRO-HOODS™.

The **Orange PRO-WEAR Bib Overalls** have an inseam of 30" and a relaxed cut for greater mobility. The overalls have integrated heavy duty suspenders, adjustable hook and pile waist straps, and adjustable gussets on the pant cuffs.

The **Orange PRO-WEAR Coveralls** are full cut with set in sleeves. The coveralls have a 30" inseam, expansion back, FR hook and pile front closure, and hook and pile cuff openings.

The **Orange PRO-WEAR Overpants** have a full elastic waistband with FR hook and pile front closure. The loose design and flared legs with hook and pile cuff adjusters make them easy to put on and take off over existing work clothing.

These garments meet current ASTM F1506 and NFPA 70E standards. All of these garments are CE 0120 certified. Available in sizes S through 3XL. Other sizes available by special order.

Orange PRO-WEAR coats, bib overalls, overpants, and coveralls are available in an all ATPVs available by Salisbury upon request. Contact your local Salisbury Representative for more information.

Salisbury, continuing to exceed industry standards.
