PRO-HOOD® CLEAR

ONLY FROM SALISBURY by Honeywell

SEE THE DIFFERENCE

CLEAREST SWITCHING HOODS AVAILABLE IN THE INDUSTRY!

IMPROVED FH8BL & FH20BL

CLEAREST LENS AVAILABLE TODAY

The IMPROVED FH8BL and FH20BL now include Salisbury's AS1000 Protective Faceshield, the clearest lens available in the industry. The AS1000 Protective Faceshield has an extra-light tint that allows for near perfect color recognition and easy sight in all situations. The lens absorbs >99.9% of UV radiation and is fog resistant.

LIGHTER WEIGHT

The improved FH8BL and FH20BL PRO-HOOD is LIGHTER than before. The new AS1000 lens weighs less than the previous option and has a thickness of .06 inches. The PRO-HOOD also has a new easy-wear design. The new design includes a shorter bib-front and rounded top for ease of mobility and comfort and reduced fatigue.

MEETS NFPA 70E HRC2* STANDARDS

NFPA 70E 2009 table 130.7(C)(10) HRC 2* now allows for a single layer arc flash suit hood with a minimum ATPV rating of 8 cal/cm². (See note 10 for alternative balaclava / face shield combination requirements). Most suppliers recommend their current HRC3 or HRC4 hoods to meet this requirement. Our improved FH8BL meets these standards and offers customers the most comfortable option with the clearest lens available today.

**WITH THESE IMPROVEMENTS,
NO OTHER OPTION COMES CLOSE!**

Cat. No.	Description
FH8BL	8 cal/cm ² , navy blue, Indura Ultra Soft®
FH20BL	20 cal/cm ² , navy blue, Indura Ultra Soft

Made from arc flash resistant, Indura Ultra Soft®
Sewn with Nomex® thread
Meets current ASTM F2178
Meets NFPA 70E standards
Meets the flammability requirements for ASTM F1506
CE 0120 certified

CLEAREST LENS AVAILABLE - Clearer lens makes wire recognition easier and safer.
