

NEW Full Brim 12 cal/cm² Weight Balancing Arc Flash Protection Faceshield**ONLY FROM SALISBURY** by Honeywell

Salisbury by Honeywell's NEW revolutionary AS1200FB is a weight balancing arc flash protection faceshield that fits all popular full brim hard hats regardless of the manufacturer. The shield easily stows in a balanced, compact position, centered over the top of the full brim hard hat when not needed.

The AS1200FB assembly attaches to the full brim hard hat with an elastomeric band that secures the bracket onto the brim. All parts are dielectric and specifically designed for arc flash protection.

The AS1200FB has an ATPV rating of 12cal/cm² (NFPA 70E HRC 2) and utilizes nanotechnology and a fog reducing coating, to provide a clearer, more transparent window for improved visibility. The faceshield unit includes an upper bracket ventilation feature that allows a natural air flow through the top of the face shield. This reduces fogging of the visor, lowers CO₂ levels and improves comfort for the user.

Optional Accessories

Attachable Task Lights: On both sides of the faceshield is an easily adjustable flashlight clip which holds task lights. With these optional task lights, the user is not inconvenienced with holding a flashlight while working. These flashlights features a high intensity long lasting white LED lamp with an overall brightness of 35 lumens.

Transparent Chin Guard: The Transparent Chin Guard dramatically increases the user's peripheral view. The enhanced viewing area increases worker performance and productivity. The highly transparent chin guard allows improved awareness and greater safety.

NEW Full Brim 12 cal/cm² Weight Balancing Arc Flash Protection Faceshield

ONLY FROM **SALISBURY** by Honeywell

AS1200FB FEATURES & BENEFITS

- 12 cal/cm² ATPV Rating
- Absorbs >99.9% of Harmful UV Radiation
- Reduces Fogging
- Tested to ASTM F2178 Specifications
- Unique Weight Balancing Design
 - The shield sits in a balanced stowed position, centered over the top of the hard hat when not needed.
- Optional Task Light Feature
 - Dual task light option available on both sides of the shield to offer advanced lighting.
 - Adjustable task light clip securely locks in place when the flashlight is installed.
 - Use optional task lights to narrow in on a focal point while working.
 - Long lasting white LED lamps.
 - Overall brightness of 35 lumens.
- Replaceable Window, NO TOOLS REQUIRED.
- Fits All Popular Full Brim Hard Hats
- Ventilated Design
 - Reduces fogging and lowers CO₂ levels when worn due to the upper bracket ventilation feature.
- Adjustable Pivot Tension
 - The adjustable pivot tension gives users the ability to tighten the shield into a balanced stowed position.
- Can Be Easily Removed from the Hard Hat
- Nanoparticle Shield/Window with For Reducing Coating
- One Hand Operation
 - Ability to slide the shield into a stowed position by using one hand.
- Excellent Peripheral Vision for the User

Cat. No.	Description
AS1200FB	12 cal/cm ² , Arc Flash Protection Faceshield Unit for Full Brim Hard Hats
AS120RG-FB	Orange Chin Guard for AS1200FB
AS1200FS-FB	Replacement Faceshield/Window 12 cal/cm ² for AS1200FB Full Brim
AS12CLR-FB	Transparent Chin Guard for AS1200FB
ASFL	Attachable Task Light (1)
FLCLIP	Attachable Task Light Clip (1)
FLKIT	Attachable Task Light (1) & FLCLIP
