

## Manufacturing DATE CODES for Rubber Insulating Products

Date coding may also appear in this circular format.

The last two digits of the manufactured year are represented in the middle of the circle.

Example :  
This product manufactured in 2006.

Each dot represents a month in the year. For example; four dots means the item was created in the fourth month of the year, April.

Example:  
This product was manufactured in the first month of the year, January.

## Manufacturing DATE CODES for Linemen's Gloves

Date coding can be supplied and applied to linemen's glove, if requested at time of order.

If date coding is needed after an order is placed, the date of manufacturing can be traced within 24-48 hours, from the rack number that is applied to the linemen's gloves. Please contact your local Salisbury representative if you require this date coding.
